

ETNA

SICILIA 5-12 OCTOBER 2024

Amidst volcanic rock and dark, fertile soil where the sweet chestnut trees, the vines, bracken, and moss thrive, we will tap into eco-mythological springs to remember and enliven somatic animistic wisdom.

Join us to meet Mount ÆTNA as a conscious entity, honing our ability to tune into her subtle, chthonic, nonverbal rhythms.

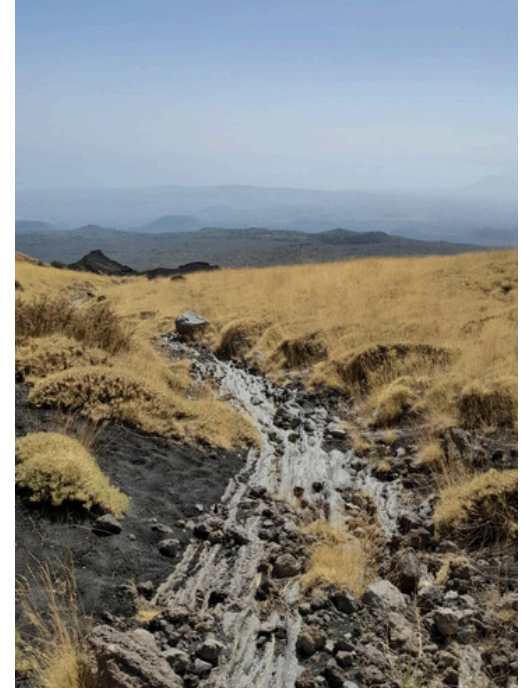

ÆTNA From either Ancient Greek Aítnē, “Aetna” or aíthō: I burn, or from an ancient sicilian dialect aiŃ-na: fiery one.

# PROGRAM

- hikes around various craters of the Etna.
- learn geomantic (earth energy) practices, connecting to chthonic&stellar wisdom of the island and the surrounding Mediterranean sea.
- soma~imaginative exercises - learn practices to unlock 'exiled capacities' within our body and deepen our conscious connection to the Anima Mundi and nature's intelligence. Practicing sensory perception and communication with mineral and plant consciousness.
- delve into the myths and stories of mount Etna and its surroundings.

It is said that Hephaestus the ancient craftsman of the underworld, works his anvil within the chthonic depths of Mount Etna

Franci is from Catania, Sicily, and is deeply rooted in the vibrant culture and natural wonders of her homeland. Growing up in the shadow of Mount Etna, she developed a profound connection with the volcano and the stunning Sicilian landscape that surrounds it. Franci takes care of the logistical organization.

Orazio has been up and down the Mountain with his father since he was 8 year old, and guiding volcanologists and Etna researchers all his adult life. He has seen the volcano in all her liquid and solid states and has endless stories to tell about her.
